REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

At the outset, it is noted that the claims are drawn to the embodiment of Figure 4.

While the prior art of record, namely U.S. Patent Nos. 5,964,438 and 5,222,611, show a rail engaging member that is removably securable at various locations along the length of the panels in holes defined therein (see last 4 lines of claim 1), these references fail to teach the panels "having a cutout free rear edge", as required in the claimed combination of claim 1.

With respect to U.S. Patent Nos. 5,718,493, 5,050,832, 5,819,958, and 4,928,833, it is noted that these references neither show a "cutout free rear edge" or the member being removably securable at various locations in holes in the panels.

Regarding U.S. Patent No. 4,457,436, while this reference shows a cut out free rear edge, the member is not removable securable in holes along any panels.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Information Disclosure Statement (IDS)

The corrected copy of the IDS, filed July 28, 2002, which accompanies this Office action is being sent because the previous examiner, Mr. Khoa Tran, did not address the foreign reference cited therein.

The information disclosure statement filed July 28, 2002 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

Accordingly, to clarify the record, the examiner has not considered the French Patent No. 2,404,411. With respect to "NIL" cited under the "Other Prior Art" section of the IDS, it is noted that it assumed that "NIL" is meant to mean "None", i.e., no other prior art id being cited.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer E. Novosad whose telephone number is 571-272-6832. The examiner can normally be reached on Monday-Thursday, 5:30am-4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard E. Chilcot can be reached on 571-272-6777. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
